“Hi Gail, Just a quick line to let you know how very happy I am with the results of the filler and lip enhancement! I look in the mirror and smile at the new refreshed expression that greets me. People have commented on how great I look! So glad I discovered you. I have been having Botox and fillers for a number of years now and have to say that no professional has ever taken as much care as you in every respect, from explaining things to me and helping me relax, to making sure pain was minimal, as well as making sure I was 100% happy with the results. Thank you so much. I'm feeling like a princess!”
